CLARIFIERS

Superior Industrial Maintenance Company, Inc. is one of the leading industrial coating, tank lining, inspection (API-653), tank/terminal repair, and lead abatement contractors in the nation. We provide turnkey services for the power generation, military and aviation fuel, oil and gas, chemical, industrial, and water industries.

Our entire organization is committed to understanding our customers' needs and providing the highest levels of quality, performance, and uncompromising safety.

A testament to this is the fact that we are one of only five nationwide companies with SSPC-QP1, SSPC-QP2, SSPC-QP3, and SSPC-QS1 quality certifications. Plus, fifteen plus members of our team are NACE certified coating inspectors. These certifications enable us to provide our customers with enhanced monitoring of our quality management process to insure superior work.

We are especially proud of our long standing culture of safety.

INDUSTRIES SERVED:

UTILITY & POWER GENERATION

CHEMICAL & INDUSTRIAL

OIL & GAS

The efficiency of any operation can be measured directly by its ability to control loss. Accidents resulting in personal injury, or damage to property and equipment represent needless suffering and waste. The safety of our employees, other employees and the public, will be the first consideration in the operation of our business.
